DETAILED ACTION

1. This is in response to the Applicant's arguments, and amendments filed on January 20, 2006 in which claims 1-3, 6-13, 16-21, and 24 have been canceled. Claims 4, 5, 14, 15, 22, 23, 25, and 26 are currently pending.

Allowable Subject Matter

2. After a thorough search and examination of the present application, claims 4, 5, 14, 15, 22, 23, 25, and 26, renumbered as 1-8 respectively, are found to be in condition of allowance.

3. The following is an examiner's statement of reasons for allowance: the cited prior arts teach when the quality of the signal is deteriorated the mobile station selects another directional antenna to continue communication. The prior arts further teach the mobile station has the capability to switch to a different directional antenna based on the quality of the signal.

On the other hand, the Applicant teaches, inter alia, selecting the antenna(s) or transmission direction(s) to continue transmission of the signal to the subscriber terminal, wherein the signals transmitted by the base stations are amplified by amplifiers, and the antenna which is connected to one of the amplifiers with the lowest load is selected as the transmission antenna. These limitations, in conjunction with all limitations of the independent claims, have not been disclosed, taught, or made obvious over the prior arts of record.

On the other hand, the Applicant further teaches, inter alia, selecting the antenna(s) or transmission direction(s) to continue transmission of the signal to the subscriber terminal, wherein the signals transmitted by the base stations are amplified by amplifiers before transmission, and the selection decision is made on the basis of the load situation of the amplifiers. These limitations, in conjunction with all limitations of the independent claims, have not been disclosed, taught, or made obvious over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
